We will no longer accept application materials via mail as of February 19, 2021. Please send all application materials as outlined in this handbook.**

All coursework must have earned credit from a college or university approved by a national or regional accrediting agency. An overall grade point average (GPA) of 3.0 or higher is required for all coursework counted towards the credential.

If the program is no longer approved, the applicant is responsible for obtaining verification of past approval directly from AATA or CAAHEP, and submitting that verification along with the application.

**For programs that aren't CAAHEP accredited or AATA approved the degree requirements for the ATR are:** A master's or higher degree with coursework in the following areas is recommended: human growth and development, theories of counseling/psychotherapy, psychopathology/abnormal psychology, psychological assessment, research, and field experience in a clinical setting. Applicants may also use non-credit art instruction (see p 8).

**Mental Health Content Requirement:** A minimum of three graduate semester credits (or four quarter credits) in each of the following six areas. If the master's or higher degree did not include coursework in all required areas, up to two courses may have been completed independent of the graduate program, provided they earned graduate credit at a nationally or regionally accredited college or university. Official transcripts are required for all coursework applied to the ATR requirements. If content is covered in the context of an art therapy graduate program, this must be demonstrated through course descriptions or syllabi detailing course content.
