Before documenting your Continuing Education (CE) activities, refer to the [ATR-BC Recertification Standards](#) for information regarding requirements, acceptable CE activities, and CE activity values.

Please note this CE tracker is for your personal management of your CE credits. This CE tracker is not part of the recertification process, it is a tool available to ATR-BC's to manage and store their CE information. Adding CE activities to your CE tracker does not mean you have recertified. When you are due to recertify your ATR-BC credential, be sure to click the recertification link on the main page to complete your five-year recertification application. You will need to add CE's from your tracker into your recertification application. This step must be completed within the recertification application before you can proceed with finishing your recertification.
